

*A Brainstorming Event*

# Start-ups and Business Opportunities in Water and Wastewater

*w3s*

*February 11-12, 2019*

Organized by

CSIR- National Environmental Engineering Research Institute (NEERI)  
Nehru Marg, Nagpur 440020

# Start-ups and Business Opportunities in Water and Wastewater

**Establishing link between water and wastewater issues/solutions and skill development, entrepreneurship.**

## Introduction

Water is an exhaustible resource and individual needs to be heedful of its consumption. While the access to safe drinking water is one of the biggest problems in India, the utilization of wastewater for other beneficial end uses has become mandatory. Given the massive scale of issues faced by the country in the present scenario, it is essential for more technology and IoT based services to address these growing concerns.

Water can prove to be an important investment area and water startups perform even more successfully than other technology startups. This indeed can contribute immensely in the direction of the water and wastewater issues.

About the Event :

## **Start-ups and Business Opportunities in Water and Wastewater (w3s)**

The event is a discussion forum and network for young entrepreneurs and professionals fascinated towards water and wastewater sector. The event aims to empower the next generation of water leaders by connecting them, providing opportunities and recognizing young entrepreneurs for their contributions towards the aforesaid purpose. The event encourages new ideas/ innovations/ business models etc. beneficial for the society under an excellent platform provided by CSIR-NEERI. We heartily welcome young professionals to share their idea and experience.

**Sharing  
Success Stories**

**Panel  
Discussion**

**HIGHLIGHTS**

**Networking  
Events**

**Presentation  
Session**

### **Expected Outcomes**

The proposed event emphasizes to provide an excellent opportunity to establish new partnerships between the governmental and local policy makers, investors, business executives and representatives of business associations. The output of the discussions will be submitted to the concerned organizations for necessary action to plan future strategies.

### **Focus Sectors**

Researchers, Industrial persons, Academicians, Engineers, Consultants, Planners, Policy makers, Self-employed, students and NGOs are expected to share their knowledge, innovative ideas, skills, experience and expertise through success stories and deliberation.

### **Sessions**

- ◆ Breaking through the business model of rural water supply system
- ◆ Business opportunities in reclaiming used water
- ◆ Innovation in water treatment/management Technologies
- ◆ Use of information technology, artificial intelligence or Internet of things in optimizing water usage.

### **Venue**

The event is organized by CSIR-National Environmental Engineering Research Institute , at the Auditorium of CSIR-NEERI, Nagpur.

## Networking Opportunities

Budding entrepreneurs will be able to meet industry leaders, researchers, academicians, policy makers, successful technocrats and other stakeholders in the event.

***Registration is complimentary***
