

Tanks for Different Application

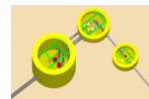

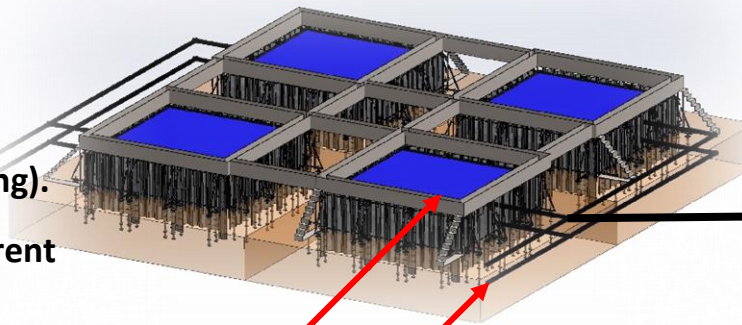

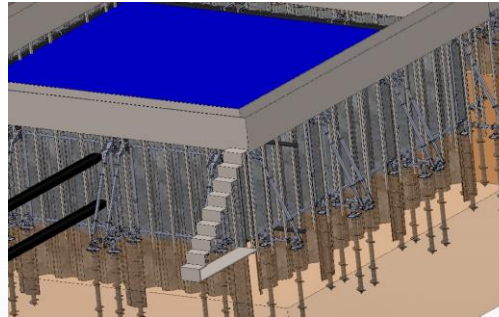

Neptune retention device can be used to create a holding tank for liquid, oil, and gas storage.

- Silt traps
- Precipitation tanks.
- Storm tanks
- Intervention tanks for temporary works.
- Wastewater treatment plant.
- Fisheries.
- Agricultural tanks.
- Water processing (fracking).

Tanks can be supplied in different sizes, ranging from 100m³ to 2000m³.

The costs of the tanks are cheaper than the concrete tanks by 30%.

Neptune tanks on wheels is a mobile tank which can be assembled and dismantled in a short time, to be packed on trailer that can be moved to a different location on the same site, or to be moved to a new site.
